Dear Sir or Madam,

I am interested in applying for the <Position Title> Position available for <Months of Coop>. Considering my experience as <Previous Job Experience>, I would be an asset to your team. Additionally, I am eager to continue developing my skillset through practical application of my <Major> studies. This position was brought to my attention by <Someone at the company you know>.

I am well qualified for this position based off my knowledge and previous experience. I have a personal interest in <Something that makes you stand out/is related to your major>. I am also enrolled in a dual degree program at RIT which will result in the completion of my Masters of Science in <Major; Include If You Are Applying To R&D Jobs>; I intend to focus on <Topics of interest> for the development of my thesis.

Additionally I have just completed a coop with <Other Company> as a <Job Title>. This experience has further developed <Skills>. One example of a project I worked on during my time at <Company> was <Something Really Cool You Did>.

Given my <Buzzwords!> I am confident that I can provide excellent support for the tasks of your group. Simultaneously, I believe this internship will help to further develop my knowledge and passion for <Major>. I would be happy to discuss my candidacy for this position with you via my email or cell phone number listed above. Thank you for your time and consideration.

Sincerely,

Seth Gower
