Seeking Software/Hardware Engineering Coop, with Embedded systems for Spring-Summer 2021

Education

Rochester Institute of Technology

Bachelor of Science: Computer Engineering, 5 year program
GPA: 3.04 -- Dean's List Spring '19

Rochester, NY

May '22

Skills

Languages: C, VHDL, Arm Assembly, Python, Java, \LaTeX , Bash, Rust, C++, Qt5

Tools: Xilinx Vivado, Git, KiCad, Altera Quartus II, ModelSim, GNU/Linux tools and environment

Hardware: Soldering, Prototyping on breadboard, Hardware design on FPGA

Professional Skills: Public Speaking, Spanish (Semi Conversational)

Projects

Pipelined MIPS Processor

Created each stage of a MIPS processor, individually tested these stages. The processor was modeled and tested using VHDL and then implemented on to Basys 3 FPGA. Once complete, the processor will be used to calculate a portion of the Fibonacci sequence

VHDL

January-May '19

Personal Homelab

For the last five years, I have maintained a personal homelab of server hardware. This homelab is used to learn about various server hardware and services, including Proxmox, Docker and PFSense

Server Hardware

July 2017 - Present

Work Experience

D3 Engineering: Software Engineer

Software Engineering technician at D3 Engineering, where I primarily worked with Embedded Linux and C development on Texas Instruments' TDA line of processors, for automotive vision applications. While working with these processors, I gained experience working with I2C, Linux Device Tree modification, and other skills.

Rochester, NY

January '20 - Present

iD Tech Camps: Lead Instructor

iD Tech Camps: William and Mary, PayPal Timonium and American University

Taught multiple courses to campers ranging from ages 7--17. Taught Java and Python coding, basic Linux and circuitry on Raspberry Pi and Robotics. Additionally taught various encryption methods with Python

Multiple Locations

June-August '18, '19

Teaching Assistant

RIT Computer Engineering Department

Teaching Assistant for the Computer Engineering Department. Assisted with Intro to Computer Engineering (CMPE-110), Digital Systems Design I (CMPE-160) and Applied Programming in C (CMPE-380). Assisted students understand the material, graded turned in items including technical lab reports.

Rochester, NY

August '18-Present

Organizations

Engineering House ehouse.rit.edu

Positions Held: Secretary

Engineering House is a social floor with an academic interest. EHouse is a place where students gather to learn and socialize through project based learning and mentor-mentee relationships.

Rochester, NY

October '17--Present

Computer Science House csh.rit.edu

Computer Science House is a Special Interest House at RIT, that focuses on working on projects and improving learning and college life by surrounding members with like-minded people. Active Member from August '17 - May '18.

Rochester, NY

August '17--Present
